Beatty, the great Organ and Piano building and shipping mogul ever. In 1870 Mr Beatty left his boy, and by his indomitability was able to so attract the attention of the Organ and Piano men since 1870, he has wrecked any ordinary man's career in the business of the world ever. His instruments, as is well known, are popular and are to be found in as many of the churches of the world as he intends to sell 200,000 more of his instruments of this kind in the future. It is already the largest business in existence.—Send to Daniel F. New Jersey, for Catalogue.
