destroyed by the person who

local authorities. One of the worst cattle regulations, the railway. This, the conviction of possibility of checking the spread of disease, was to be hopeless to attempt to check tracks so long as the movement of cattle. As the movement of cattle was to be allowed, more conflicting regulations would be enacted and more confusion would be entailed in consequence. The Government in fear of the large losses, to which were made entirely subservient refused from moving the regulations of the bill, because the heavy debate, and because he was of delay. He had never been so much as the day before.
