IN SEARCH OF A WIFE.—The

ing curious advertisement appears in *Natural History* of a contemporary. The gentleman, whose maidens are "love, peace, happiness, and from two thousand pounds," gives his real name as "Wants," by a handsome young farmer, who is becoming domesticated, and enjoying the society of a young cool-tempered female, who would take away from his market fertility by her pleasantly persuasive manners. She must not be less than six to be a widow, whose family must be at least six. "Wants of blood would be no objection, provided she possessed from one to two hundred pounds. Her rent, tithes, and taxes, are to be paid up, and he is wholly free from debts. All that requires is love, peace, and happiness.—Apply to Tenbury."

THE CORN TRADE.

The *Mark Lane Express*, in its review of the corn anticipates that the reaction in the price of wheat will be permanent, with a further rise in the spring wheat has been selling at less than barley, and is now sold instead of barley for cattle food. Doubtless we will find their way here on the breaking up of the frost, but the relative difference between foreign and domestic rates is not such as to promise large cargoes. Last week has continued to show great firmness in the price of the year, with a rise of fully 1s. per bushel has exhibited something of an upward tendency.

CORN MARKETS.

NEWCASTLE CORN MARKET, Tuesday.—At this date there was a small supply of wheat, both from the east and the coast, but it came chiefly from the advance of 1s. to 1s. 2d. per qr. on the rates of this date was obtained on both English and foreign. The trade was not so brisk as on Saturday. Barley was in demand at 1s. more money; grinding 9s. 6d. per cwt. Malt firm. Beans unchanged but peas were lower. Oats sold slowly at previous terms. Flour 1s. cheaper.

GLASGOW CORN AND PROVISION MARKET, Saturday.—The following were the prices current at our market:—Barley, 10s per qr; oats, 7s 6d to 8s 6d; rye, 10s 6d to 11s 6d; wheat, 12s 6d to 14s 6d; flour, 12s 6d to 14s 6d; meal, 12s 6d to 14s 6d; and provisions, 12s 6d to 14s 6d.

CATTLE MARKETS.

NEWCASTLE CATTLE MARKET, Tuesday.—The stock presented for sale exhibited an increase of 2,000 and 2,300 sheep, as compared with that of the previous day. The quality of the cattle was scarcely good, while that of the sheep was of the best. We received 1,250 head. With the exception of the note calves, there was a slight reaction to the west of the river, and the decline for most of the day was in a sharp state at a decline of 20 per cent. in the rates of this week's night. The number of sheep was 7,700. The mutton trade ruled inactive, and the price of the 14 lb. was lower than last week. Few were sold.
