YOU KNOW
 Kidneys are the only natural
 purifiers!
 The blood must go through the
 kidneys for purification, so it goes
 through the heart for oxidation!
 If you are full of poisons, that poison
 goes through every vessel!
 If you are very full of poisons, the
 blood is very thick and is filled with
 acid (Kidney poisons) because of
 knowledge, because the kidneys
 may be diseased and not give
 any pain!
 You cannot have good health and
 diseased Kidneys!
 The majority part of all Diseases
 caused by unexpected attacks
 and Mood!
