[illegible][illegible]

The case of the accident was not the only one of the kind. The following day, the same thing happened to the same boat. The boat was a small one, and the accident was not serious. The boat was damaged, but the crew was not hurt. The accident was caused by the same reason as the first one. The boat was overloaded, and the crew was not properly trained. The accident was a warning to the other boats in the harbor. They should be careful not to overload their boats, and they should make sure their crews are properly trained. The accident was a reminder that safety is always the most important thing. It is always better to be safe than sorry.

In a letter to the editor of *Herpan's Journal*, J. E. describes his plan for carrying a message to France. His route under the sea is a mess straight across to Cape Girardeau, which is between Calais and B-some, a little nearer to the former. His reasons for adopting this route is the Dover one, appears to *Herpan's Journal* force, and he thinks that, if a tunnel is to be Remington's seems the best plan.

[illegible]

It has been observed that a "strong" and "stable" government is the only way to bring about the desired reforms. Mr. Jaire has been elected president of the Republic of Panama, and he is a man who was prominent during the last years of the life of the late President of Panama, General Barrios. He is a man of the people, and he is a man who is a strong and stable leader. He is a man who is a strong and stable leader. He is a man who is a strong and stable leader.
