DR. DRENT writes:—The Titmars is a natural Wine of generous quality. It grows on ferruginous soil, and possesses high tonic and nutritive properties. The Wine before me is quite mature, and positively full bodied and of superior proportions. The Wine before me is the best and the best of its kind.

DR. MACKINTOSH states:—I have much pleasure in bearing testimony to the high character of the Titmars as a tonic restorative in convalescence from acute or chronic disease. It is full body and of a most perfect purity, free from acidity) rendering it a valuable addition to the wines hitherto recommended.
