THE THREE DAYS' CURE. — FRENCH REMEDY THERAPY, as uniformly adopted by the French Army and Navy, is the only scientific and reliable method of curing all the venereal diseases, whether acute or chronic, without the use of mercury, and without any of the painful and dangerous consequences of the various methods of treatment now in vogue. It is a remedy which, concocted on scientific principles, cannot be sold for less than 25 francs (40 shillings) per bottle. Price 25 and 11s. 6d. for those the latter 12 50s per bottle through all Chemists, or direct from 25, Bedford Place, where thousands of testimonials may be seen.

The thousands who acknowledge the value and accuracy of Miss C.'s sketches establish the great utility of such a work. I find that the following is the only copy in the city, viz. Athol, Co. Galway. checking grines is all it takes, and the hair is growing again, preventing its falling out. In the reproduction of each hair from the root, the hair is made to grow in a certain direction, and a certain way, and it is this that makes the hair so valuable. It is a valuable power. In the surgery it is indispensable, for the hair is a beautiful head of hair. Price is per bottle; 1 bottle, containing more than four times the small one, is sold by all Chemists in the world, or sent post free, on receipt of 24 penny stamps, by Messrs Dean and Campbell, Hair Restorers, 48, Castle Street, Newman Street, London, W.

REVIEW OF THE CORN TRADE.
(From the *Mark Lane Express*.)
BRITISH. —The past week opened with some quantity, and the temperature throughout has continued

usually m.d. Field-work has, therefore, been rather
ped; but being previously forwarded, tillage is a
advance of the average years: as is the condition
wheat plant, the most reliable accounts show an ex-
breadth. Here and there a few complaints are made
unpromising growth, but these cases we are glad to
as exceptional. Dry weather is now wanted, to comp-

sowing of barley and oats, as well as for the improvement of the samples; and it is somewhat disappointing, if not generous, to need this reasonable complement of March, although it was partly anticipated in February. The frost has completely browned the meadows, which, up to its appearance, were looking beautifully green; but is yet plenty of time for a crop of hay. Roots have b

well, and the abundance of taraputs has begun to do so. Depression in spring corn; while the unexpected stoppage of disease in potatoes, together with mild weather, has led to the consumption of bread. These several considerations have brought a subitaneous turn over the wheat trade, notwithstanding the falling off of foreign supplies, and the market has yielded generally, though scarcely 1s. per qr. fruit was sold severely in the Baltic, and navigation there is believed to be before the close of the month.

and the near countries show firmer or improving markets, and even in the Baltic there are favourable indications. But Odessa and the Mediterranean have been very dull. In receipt of discouraging advices from the West. At New York there has still been some export trade, though the stuffs have scarcely supported previous prices; while Southern ports have to pay extravagant rates, as the sequel of the blockade.

FOREIGN.—The buoyancy of the Paris bond market lately was scarcely sustained last week, though the prices still ranged from 47s 6d to 47s 6d per 250frs. 5 Millers generally found difficulty in selling at above 250frs. The late advance in wheat attracted attention more offers being also apparent, sales of second could scarcely be made without yielding 5d to 1s 6d finer was more offered than a week ago, though still 37s 6d per qr. per 100 dln as a top price. Oats were still improving, the highest quotation of 5½ being this week established, and the highest quotation 38½ for 150 dlns. In Belgium wheat trade has somewhat improved generally as demand, and somewhat in value. More business has been passing at Danzig at fall rates, about 4½ being placed in a week. The wheat trade was in calm at Odessa, but holders were evincing more confidence in the future, notwithstanding. The last advices from

land in France were discouraging at New York
