the *Irish Canadian*, a Fenian newspaper printed in Toronto, and arrested the editor.

The Royal yacht Victoria and Albert is to be ready for service by the 1st of June, when she will take the Prince of Wales and his family to the summer residence at Sandringham.

THE DISARMAMENT IN BELGIUM.--The Belgian Government is contemplating the destruction of the famous citadel of Antwerp, in order to enlarge the commercial port and erect a railway station there.

COLLIERS ON STRIKE AGAIN.--The colliers and drawers employed at the California Pitt Aspell, belonging to the Wigan Coal and Iron Company, are again on strike. About 250 have left work. The cause is stated to be that the men are aggrieved through the masters having made certain deductions from their wages for sending up tubs short of weight and dirty-coal.

THE GRAIN TRADE.—The *Mark Lane Express* says, the pastures and the spring corn are now

in want of work, but almost on the whole looks well, still little to be done in the way of markets and the foreign arrivals have been less, though the prevailing sunshine has induced increased activity on the part of milliners. The market for furs has declined 10 per cent on an average; there yet being, however, considerable quantities of the kind. The Russians are entirely felt, the decline would speedily be recovered, and there is still an uncertainty about adequate supplies. The fact that the Russians are valued 10s. per garbine, and that fair shipments have been made considerably relieves apprehension for the future, and with falling markets in Russia, Germany, and a reduction even in New York, no actual want is moving before us, while early gatherings in the southern counties would seem to be attended by stealer. There is generally a fair promise to the eye throughout the North, and the weather is falling fast in Hungary, and many other parts of Europe.

The greater anxiety to sell on the part of exporting countries gives us promise of good further supplies for a time, and this is just what we want to cover the
