 HEXHAM,

...trous females were obliged to remain a few hours after the ceremony in the room to go to bed—possibly to complete the ceremony, as they had been entrusted with the key of the palace that reigned over it. The door was broken by someone outside, and attempting to go out, the noise startled the young ladies, who screamed, and imagining that the door was open, in the alert, they simultaneously rushed to the door, against which they first knocked, and thus guarded the entrance. The latch continued to be turned, and the ladies called their mother, who, on the appearance of the old dame, immediately recognized an attempt was being made to break in.

MEDICINES!
One of the most serious and protracted trade struggles within memory of the oldest residents in New South Wales to disturb the peace, profits, and power of those country Chemists and Dispensaries who, in the most unbecomingly unbusinesslike and unenterprising circumstances (inexpariably associated with this struggle), had sought to frequently and

A pig was reported to have killed one day last week. Afterwards, "porky" was seen in the Mountains, where it was an active police sergeant; while waiting there succeeded in catching a supposed that the pig was the boys for a "lark."

There seems to be a hitch in the public scheme; and what will be the ultimate of the project it would be futile to conjecture.

[By "INCORP."]

There seems to be a blitch in the public scheme; and what will be the ultimate if the project it would be futile to conjecture. Iron Company appear to have reconsidered original offer, and to have partly withdrawn. The time has, however, arrived when the men of the Board have determined to come understanding as to the actual basis of proffered grant; and with this object in view pressed Mr Jenkins pretty closely at the sitting of the Board. That gentleman did however, commit himself, but parted every with the skill of a master of fence. Delay said to be dangerous, and this is a case in

CONSETT
 the Consett Primitive Metho-
 its monthly entertainment
 Saturday evening.

Years have elapsed since the subject was introduced, and the gift—for it almost took form of a gift—has hung in the balance so that the Iron Company's charity has waxed immense, and thoroughly practical himself.

Years have elapsed since the first time I met him, introduced, and the gift—for it almost takes the form of a gift—has hung in the balance so that the Iron Company's charity has waxed impetuous, and thoroughly practical himself. Jewlike he has sympathy with Luke-warm, guiding coaches. I remember having heard advice the people of Consett for not having advantage of certain aids which the firm which he is connected had proffered, conditions that the people themselves would undertake to perform a given part. I have forgotten the subject matter which gave rise to the reproach; he used the words—and, expressive words they are—"our lives are wearing away." So is it the case of the long-projected park. But what

STUDENT AMBASSANCE—It will be the duty of readers that some time to attend to Mr Peter Surtees when he was precipitated into the house and sustained severe injuries. He was rendered unable to stand and was glad to say, however, that the policy of the General Accident Assurance Company received from

change may have transpired in the minds of the Directors of the Iron Company, Mr Jenkins cannot, of course, be responsible. A change for the better in the commercial world might alter the aspect of a material. These are dull times indeed.

"Uncasy lies the head that wears a crown," says the adage, and what is true of the monarch is true also, in a greater or less degree, of the meanest subject. Public men have, as a matter of course, more than their own share of responsibility and trouble; and if one may judge from the latest issue of this journal, it would seem that the public men in our district form no exception to the

PARLIAMENTARY DEBATING
The sitting of the House in committee was held on Tuesday evening at the School-room, Consett, and commenced with the proposal by Mr. Gifford, one of the members—who 43 gentlemen had subscribed the roll and who had asked three questions relating to the accident having been discussed—relating to the amendment to be made in the Bill.
Mr. Gifford's speech was continued by Mr. Wainwright, member for Portmouth, who was seconded by Mr. Gifford, member for Newcastle.
The Secretary, and by the motion, after which the Principal division was taken; when the amendment, 33; against the Government, 2. A large number of members were admitted to the House at 8 o'clock.
