At 10 o'clock the students of the college gathered in the hall for the celebration. The Rev. Canon Franklin was the first to speak, and he gave a most interesting retrospect of his life. He spoke of his early years, and of his time at the college. He spoke of his friends, and of his enemies. He spoke of his successes, and of his failures. He spoke of his hopes, and of his fears. He spoke of his love, and of his hate. He spoke of his joy, and of his sorrow. He spoke of his life, and of his death. His speech was most interesting, and was well received by the students. After his speech, the students sang a hymn, and then the Rev. Canon Franklin gave a short address. He spoke of the future of the college, and of the future of the country. He spoke of the need for education, and of the need for religion. He spoke of the need for justice, and of the need for peace. His speech was most interesting, and was well received by the students. INSIDE'S CONSUMPTION CURE.

age of misrepresentation, confidence has been destroyed, and knowing that Handyside's Optic Cure is the best thing in the world, I send out shops in the principal towns of England, and at night they are filled with people who have taken the medicine. Everyone goes and bears the grand name it has been called since its discovery, "Handyside's Optic Cure," and cures all kinds of eye diseases, such as Catarrhs, Inflammation, Tumours, Lopus, Induration, and Eruptions on the Skin, &c., of the Body, and Bright's Disease. The Jungs are eaten away and corroded. As soon as the Jungs are eaten away, the eyes have been expected, life has after that time been enjoyed. After 6 months by taking this Medicine the Jungs are eaten away it will not put them in, and so one can live without eyes.

There is no hereditary consumption, but hereditary delicacy, and consumption produce delicacy. Therefore all people should be delicate and preserve their lives, a common thing to receive letters marbled and, on opening them find the words: "My child and I will pay you what you like," the lungs are half gone, it will only ease the lungs will not cure. The great tribune of John Bright, might have lived yet and he used medicine at the early stage of Bright's For Cancer, scum, has been cured, and no signs of returning, and all have received its benefits. There are thirty thousand

annually of Tumours. I have known a man people ripped up and operated upon being cured, and has been perfectly to health with this medicine. At Sunderland informs me that he has thirty- of Tumour, and he has only failed in , which has been of very long standing. I visit any of my assistants, I find or six very slight draw fifty pounds from my and ask any patient before hundreds of whether they will have the fifty pounds doctor's medicine, or they will have more medicine, and never one has preferred the medicine yet. I have seen a challenge to destroy the world and offend all the

Delicate people should take it for ever.

PILLS prepared by Handyside are a highly rated vegetable extract. They contain no sugar, therefore cannot ruin the constitution as medicines do. They build up the body by easy digestion and highly nutritive properties. Surprises many to see such grand results from small quantities, but apply a pound of soda on one part of a meadow field a ton of manure, and you will see which is the quickest result, and it is the immediate effect of those Pills that so quickly aid digestion, that does the great good.

Ases arise from indigestion, which starves you, and when the body is weak it is a prey to disease. Costiveness is the finger-post of idleness, and no one has ever been cured of it by medicine. It relieves for a day or two and makes you worse than ever, then more so. It is akin with the same bad result, and if you do not digest well, you will never be sound.
