

Dr Hood, in reply to Mr Laverick, be-

might cause the Board much more than £5 in the event of an outbreak of epidemic of the ordinary course of things, the additional might not be much more than £5 a year.

The suggestion of the Chairman, it is to let the Board remain in alayman for a month, and see what other localities are doing. Dr Huxd pointed out that their death 20 per 1,000, which was higher than the in England. He trusted, however, that it would be lighter.

Mr LAVERICK asked if they could, in the event, revoke the act.

The Clerk: I think not. There is no power that.

THE STATE OF THE FLAG.

Mr LAVERICK (to the doctor): Do you think deaths are attributable to people getting up the flag?

The Doctor: I don't think so.

Mr LAVERACK: I don't remember anything. Mr WICKLEY: It is satisfactory to know that you are not a liar. Mr LAVERACK (laughter): I am surrounded Mr TOWNSEND: I am not only said that I was an interested party. It was decided not to delay the flag-  
ring, but the surveyor was authorized to  
rush half of the flag, and meanwhile repair  
the rest in the worst places.

THE PRESIDENT'S REPLY.

Mr J. Hillary, in his report, said he hoped  
all the limestone laid upon the roads, be-  
cause of their cartmen to the orders of  
a man and himself was such that they could

with two or three barrels of water. Some paths required a sprinkling of ballast to keep the water in and the floor moist in all

inspired or laid. Some digging in the garden a nuisance besides the constant rain. On the 22nd October, he found a dealer, named Weatherall, with his horse standing upon the flags, in Edge Street, and had been previously caught on against the wall of the house, and was taken to the police. The dog emptied a pot-bell full of dirty water on the flags in front of the house. The result was that the water entered the neighbouring dwelling in Dane Castle. He had repeated persons against committing such an act. The dog was taken to the police, and was found to be a dog of the name of "Buck", for burial fees, £10 6s 6d, and for the dog only £5 10s 4d arrears, which was recovered by next quarter. The monthly amount was £10 10s 14d, leaving the sum in his hand.

man seemed to think that he (Mr Hill) had nothing else to do but run about after him like a dog on a leash, and that he was a slave when he was not a slave.

THE CHAIRMAN stated that the youth was 20 years of age, and if some arrangement could be made to pay the money to his mother, then she would be better attended to.

MR ATKINSON urged upon the Board to tender.

MR TEASDALE asserted that fault was with the last creditor, although he did his work well.

THE SURVEYOR said that this creditor had been a cattle man, shifted his trade, or did not wish to rather than carry on, his contract with the Board. In fact, he absolutely refused to do the work.

THE CHAIRMAN suggested that the surveyor was empowered to procure the services of another.

This recommendation was acted upon and the committee decided to change the contract to the name of the author.

Mr TEASDALE: I've been asked what the roadman doing in the morgue?

The Surveyor: He has been guttering the Castle.

Mr TEASDALE: There won't be much to go there. The roadman is feeding about a lot of his time in driving motorcars.

THE LAST ACT

Mr ATKINSON said that some persons were habit of tipping loads of coals upon the cart was taken across the kerbstones, and the reason that the flags were so much damaged.

Mr TEASDALE: It's time we made an order of the Council.

The CHAIRMAN thought they should do parties before resorting to magisterial proceedings.

Mr TEASDALE: We have had another Board doing the very same thing after being

On the proposal of Mr LAVERICK, the

[illegible]

The Surveyor stated that Kemp, the manager, had declined to assist him t

The Board directed that the Surveyor by their orders were obeyed, otherwise measures will be adopted with regard to the handing count of the gasworks manager.

FINANCIAL NEW RATE.

After paying the monthly accounts of the \$68 24 10d, there was a balance of about one bank.

The Clerk stated that a rate of 8d in the pound produce £230, and 9d would result £254.

Mr LAYBICK said their rateable value was increasing.

The Clerk replied in the affirmative.

Mr ATKINSON suggested that they should have a 9d rate, and then when they had a good
